| <i>Year 3 develop their narrative writing skills through exciting stories inspired by Ancient Egypt. They also explore poetry, using vivid vocabulary and imagery.</i>                                   | <i>Build on their understanding of place value and develop their skills in addition and subtraction. They use efficient strategies to solve calculations and explain their mathematical thinking.</i> | <i>Learn about the Ancient Egyptians, exploring pharaohs, hieroglyphs, mummification, and the lives of different people. They discover Ancient Egyptian culture and lifestyle, including beliefs, traditions and daily life.</i> | <i>Learn about animals and humans, exploring how living things grow, survive and stay healthy. They investigate nutrition, movement and the importance of a balanced lifestyle.</i>                              | <i>In Computing, Year 3 create stop-frame animations using iPads. They plan, capture and edit a sequence of images to bring their ideas to life.</i>                                                |
| Art and Design                                                                                                                                                                                           | Religious Education                                                                                                                                                                                   | Physical Education                                                                                                                                                                                                               | Personal Social and Health Education                                                                                                                                                                             | Black History Month                                                                                                                                                                                 |
| <i>This term, Year 3 explore Ancient Egyptian artefacts through sketching and design. They use ModRoc to create their own three-dimensional artefacts, inspired by Ancient Egyptian art and culture.</i> | <i>In PSHE, Year 3 explore the question “What makes us human?” They discuss emotions, relationships, similarities and differences, and what makes each person unique.</i>                             | <i>In PE, Year 3 develop their gymnastics skills through movement, balance and sequences. They also build their netball skills, focusing on passing, catching, footwork and teamwork.</i>                                        | <i>In PSHE, Year 3 explore the Jigsaw unit “Being Me in My World”, focusing on belonging, responsibility and working together. They reflect on their role within the class and have created a class charter.</i> | <i>In BHM, Year 3 learn about Barbados, exploring its rich culture, traditions and history. They discover what makes Barbados unique, including its people, celebrations, food and way of life.</i> |
